

DE LA SALLE HOLY CROSS COLLEGE
High School

Dear Parents, Guardians and Students.

We are continuing to use Google Calendar as a form of updated communication, if you have already connected and synced with the calendars last year, you are good to go, they are the same calendars. Please ensure that you also have the D6 Communicator as a number of alerts are sent via the Communicator that will be vital for your attention.

D6 Communicator

The download for the DLSHCC communicator is on the website main page towards the bottom.

Google Calendars

These calendars are also used by staff and form part of other forms of communication such as the D6 Communicator and the website.

Please note that there are a few limitations in comparison to the D6 communicator; you cannot “isolate” or request only a specific activity or sport to be shown within the calendar.

However, as the events and activities are updated on the relevant calendars, the change will be synced with your device or calendar within 24 hours; provided your device is connected to the internet and the “Sync” has been enabled.

You will be able to open the links and view the calendar in an internet browser or add the calendar to your device. The instructions for adding these calendars to your devices are attached to this document. There is also a Google Drive “Resources Folder” with the same instructions and documents on other applications within Google that may be of interest. The link for the resource folder is

We hope that this new venture will assist us in improving communication.
